ALEKSANDER KESELMAN, Ph.D., and NIKKI HELLER, Ph.D.,

Present

How the new Combined flow cytometry and functional imaging Core can enhance your basic and clinical research for improved experiments, papers and proposals.

An introduction to the scope and range of capabilities of the new Combined Core instruments, the CytoFLEX S system flow cytometer and the IncuCyte functional imaging system; the new Core facility and personnel; educational and training programs and specifics on how these instruments can help YOU conduct better experiments!

Thursday, August 9th, 2018
Ross 303 conference room
8:45 - 9:45 am

... and so much more!
