The Department of Anesthesiology and Critical Care Medicine is pleased to announce a new service for patients at the Johns Hopkins. The Perioperative Pain Clinic provide consultation service that evaluates and adjusts a patient's chronic pain management prior to surgery and manages their analgesic regimen post operatively.

We provide world class care by incorporating a multidisciplinary approach to include the **Acute and Chronic Pain specialist, Psychiatry**, access to **PM&R, Integrative Medicine and Opioids Rehabilitation** teams. We hope this service is valuable to you and your patients during this important aspect of their perioperative care.
